The "mother-hen" of the wing, this girl known as Pattu is there to take care of everything under the sun. A computer wizard, she spends most of her time working in CSD or reading some fat book. A very responsible person, Savithri has been the secretary of Ragamalika during her third year. Music is the love of her life in addition to several other interests! Extremely religious, she is a philosopher too! She is keen on becoming an entrepreneur after her education.

"Appearances are deceptive" This is very well proven by her. She is seen in the Insti attending classes or talking with guys. She manages to meet all of them in the Insti as she is very particular about not getting gate calls. She may seem innocent but behold she is the screamer of the wing. If there is no noise in the wing, it means that this lady is sleeping in her room with a book in her hand. Though she is a menace (sometimes), she happens to be very helping and caring. She is looking forward to making a good job in a chemical industry.

Lovingly christened "Jokerni" by her wingies, she suits her name only too well. Her sense of humor gets the better of even the worst situations and her loony antics bring to life all the tales she weaves. This sleeping beauty's assets include the messiest room in the wing, a suddenly transformed dressing sense since CDC's, hours and hours in front of the television with any crappy novel she can lay her hands on. She's all geared up to fly off to US to do her MS.

Hardworking and determined, this school topper has a special interest in programming. This hyper-enthused witty girl charms everyone by her gift of the gab. All set for higher studies, her strong-will will take her a long way in life.

Hariharan, hailing from Chennai, justifies his name with his melodious voice. An ace carom player, he once finished a board without even giving a chance to his opponent. It's a nightmare for the batsmen when it comes to facing his unplayable deliveries. His only love in BITS is ANC sambhaar so much so that he cleans the plate with his tongue. Winter is his favourite season because that is when he whisks away many things from Mittal into his jacket. He lends his patient ear to anybody's problem and he gives his best to settle it. He is all set to crack the CAT.

Size does matter- anyone close to him will vouch for it. The adage, 'Throwing your weight around' applies in all senses to him. A guy, who would like to be known as one with an astounding stature, is in reality a child at heart. He has an aesthetic eye and it is no wonder that web designing is child's play for him. This Madurai macho would love to marry a Mallu maid (Mallus beware!). Currently the cultural secretary of Budh, he holds multiple responsibilities in CRAC and MMC. Highly responsible, this cheerful guy is all set for a career in Ad hoc Networking.

India is my country...I love my country... And so she is away from GRE, TOFEL, and GMAT. This maths stud is a typical Piscean. She lets her imagination soar and then engineers it down to earth. Her skill of enacting is so powerful that one can experience the situation inspite of its absence. Though grave for looks, she is cool. This ebullient, fun loving and diligent girl has lots of dreams about her future.

He is a cute little guy born in June 1983, perhaps the youngest guy of 1999 batch. His little mouth waters on seeing every gal on campus, every girl is hot for this one. Given an opportunity he is ready to seize any girl's hand at the speed of lightning, he could be equalled to a street stray labourer if it comes to his tastes, an ardent hero worshipper of Pavan Kalyan, a highly unsteady character with a very calm and serene mind. Highly studious only if he enjoys the course, otherwise he is the first one to sploosh it.

Do you know what her name means? Intelligent! Sounds soft but it's quite contradictory. Her second name suits her well. Anyone in need of advice, of course a little boring one, can get a nice lecture from her. You can always find someone shouting for her as Akbi, Aabe or Abi, believe it! There's a great fund in that. Her room overflows with a very busy with Maths junta before every Maths CDC test. She is so caring and loving that she became the wife of the wing. She likes singing, cooking, housekeeping, and also beating everyone next to her. "Start a work with confidence, do it with perfection and you will surely land up in satisfaction..." this is what she believes.

This handsome six-footer has a strong inclination towards food and sleep. With a down-to-earth attitude, this guy from Hyderabad mingles with one and all freely. He came to BITS with a "back home" psenti, developed a crush on a dopyite in his first year and is now onto another batch mate with the same name. But then his dream girl was, is and will be Sonali Bendre. He visits the IPC frequently, only to chat with some girl. Be it the US or France, he has got e-friends everywhere. A rod question paper and you can bet on his cracking the test. He has been fondly called Metta for his illogical and unreasonable actions and ideas. Going to Jaipur from Delhi in search of Pilani, was just the beginning. Calling back to tell he was lost was another thing! Helpful that he is, he is always ready to teach you all the intricate fundas of all the courses. With an ambition to achieve and the ability to perform, this stud is ready to walk into life with confident strides.

"Mirror, mirror on the wall, who is the thinnest of us all?" We wonder if it is her laziness or figure consciousness that keeps her from eating. Her laziness is reiterated by the number of make-ups she has taken till date. The 'Make-up Goddess' of her wing has issues as important as the affairs of J&K on her mind. With an attendance of more than 95% in 'SKY' she is sure to make it high in this world! This 'child at heart' girl's second love is basking in her room writing stories, sketching or just wondering if she'll ever find a Utopia as full of love & life as she is. An ardent follower of the "Guss"ian philosophy, Cherry is rarely found in classes. The English Drama Club, though, occupies a higher position on his priority list. Having successfully played the part of an actor, a director and a secretary, he now aims for the most difficult role: the cot-lifter! Composer of many radical songs like "I want my mummy", "I can't smell my socks" and "Run to the bogs", this guitar "guru" has successfully managed to draw some half a dozen disciples who worship their streaked master and his streaked mistress. Cherry has made a significant contribution to the Lights Department as Co-ordinator, and with funds like "randomize the Rippler effect".
